SUMMARY

Frontend Engineer with 5+ years building web and mobile products at scale in healthcare, aviation and payments. Currently at **Hapvida NotreDame Intermédica**, Brazil's largest healthcare network, building large-scale React systems and maintaining the Design System I co-created, used across multiple company products. Previously shipped features for the **Azul Airlines app** (React Native, 10M+ downloads) and **AzulGPT**, an AI-powered internal assistant. Comfortable owning features end to end, from architecture to App Store and Google Play releases.

SKILLS

Languages & Frameworks: TypeScript, JavaScript, React, React Native, Next.js, Expo

State & Data: React Query (TanStack Query), async state management, SQLite

UI Engineering: Design Systems, component library architecture, styled-components

Practices: Performance optimization, re-render control, cross-platform consistency, App Store & Google Play publishing

EXPERIENCE

Frontend Engineer — Hapvida NotreDame Intermédica

Feb 2025 – Present

Brazil's largest healthcare network · Remote · Cuiabá, MT

- Build and maintain large-scale healthcare web systems with React, TypeScript and styled-components.
- Co-created and maintain the company's internal **Design System** library, adopted across multiple products to standardize UI and reduce duplicated component work between teams.
- Implemented **autosave** for complex, multi-step forms using React Query, preventing data loss during long data-entry sessions.
- Improved rendering performance in data-heavy screens by profiling and eliminating unnecessary re-renders, keeping the codebase maintainable at scale.

Frontend Engineer — WeFit (client: Azul Brazilian Airlines)

Jan 2023 – Feb 2025

Digital product consultancy · Remote · São Paulo, SP

- Developed and maintained features for the **Azul Airlines mobile app** (React Native, iOS & Android), with **10M+ downloads**.
- Contributed to **AzulGPT**, an internal AI-powered mobile assistant used daily by Azul employees.
- Delivered features with a strong focus on performance, cross-platform consistency and user experience.

Frontend Developer — DomPixel

Jul 2021 – Dec 2022

Software studio · On-site · Cuiabá, MT

- Built and published mobile apps with React Native (Expo, TypeScript, SQLite), owning the full App Store and Google Play release process.
- Developed Next.js and React web applications, including checkout flows with credit card payment integration.
- Owned features end to end, from architecture decisions to production deployment.

EDUCATION

Associate Degree (Tecnólogo) in Internet Systems

2021 – 2023

Federal Institute of Mato Grosso (IFMT)

Technical High School Diploma in Computer Science

2017 – 2019

Federal Institute of Mato Grosso (IFMT)
